VOLOKNO

Volokno family

The baking area is a place where customer's trust is creating. It is the atmosphere for further purchases.

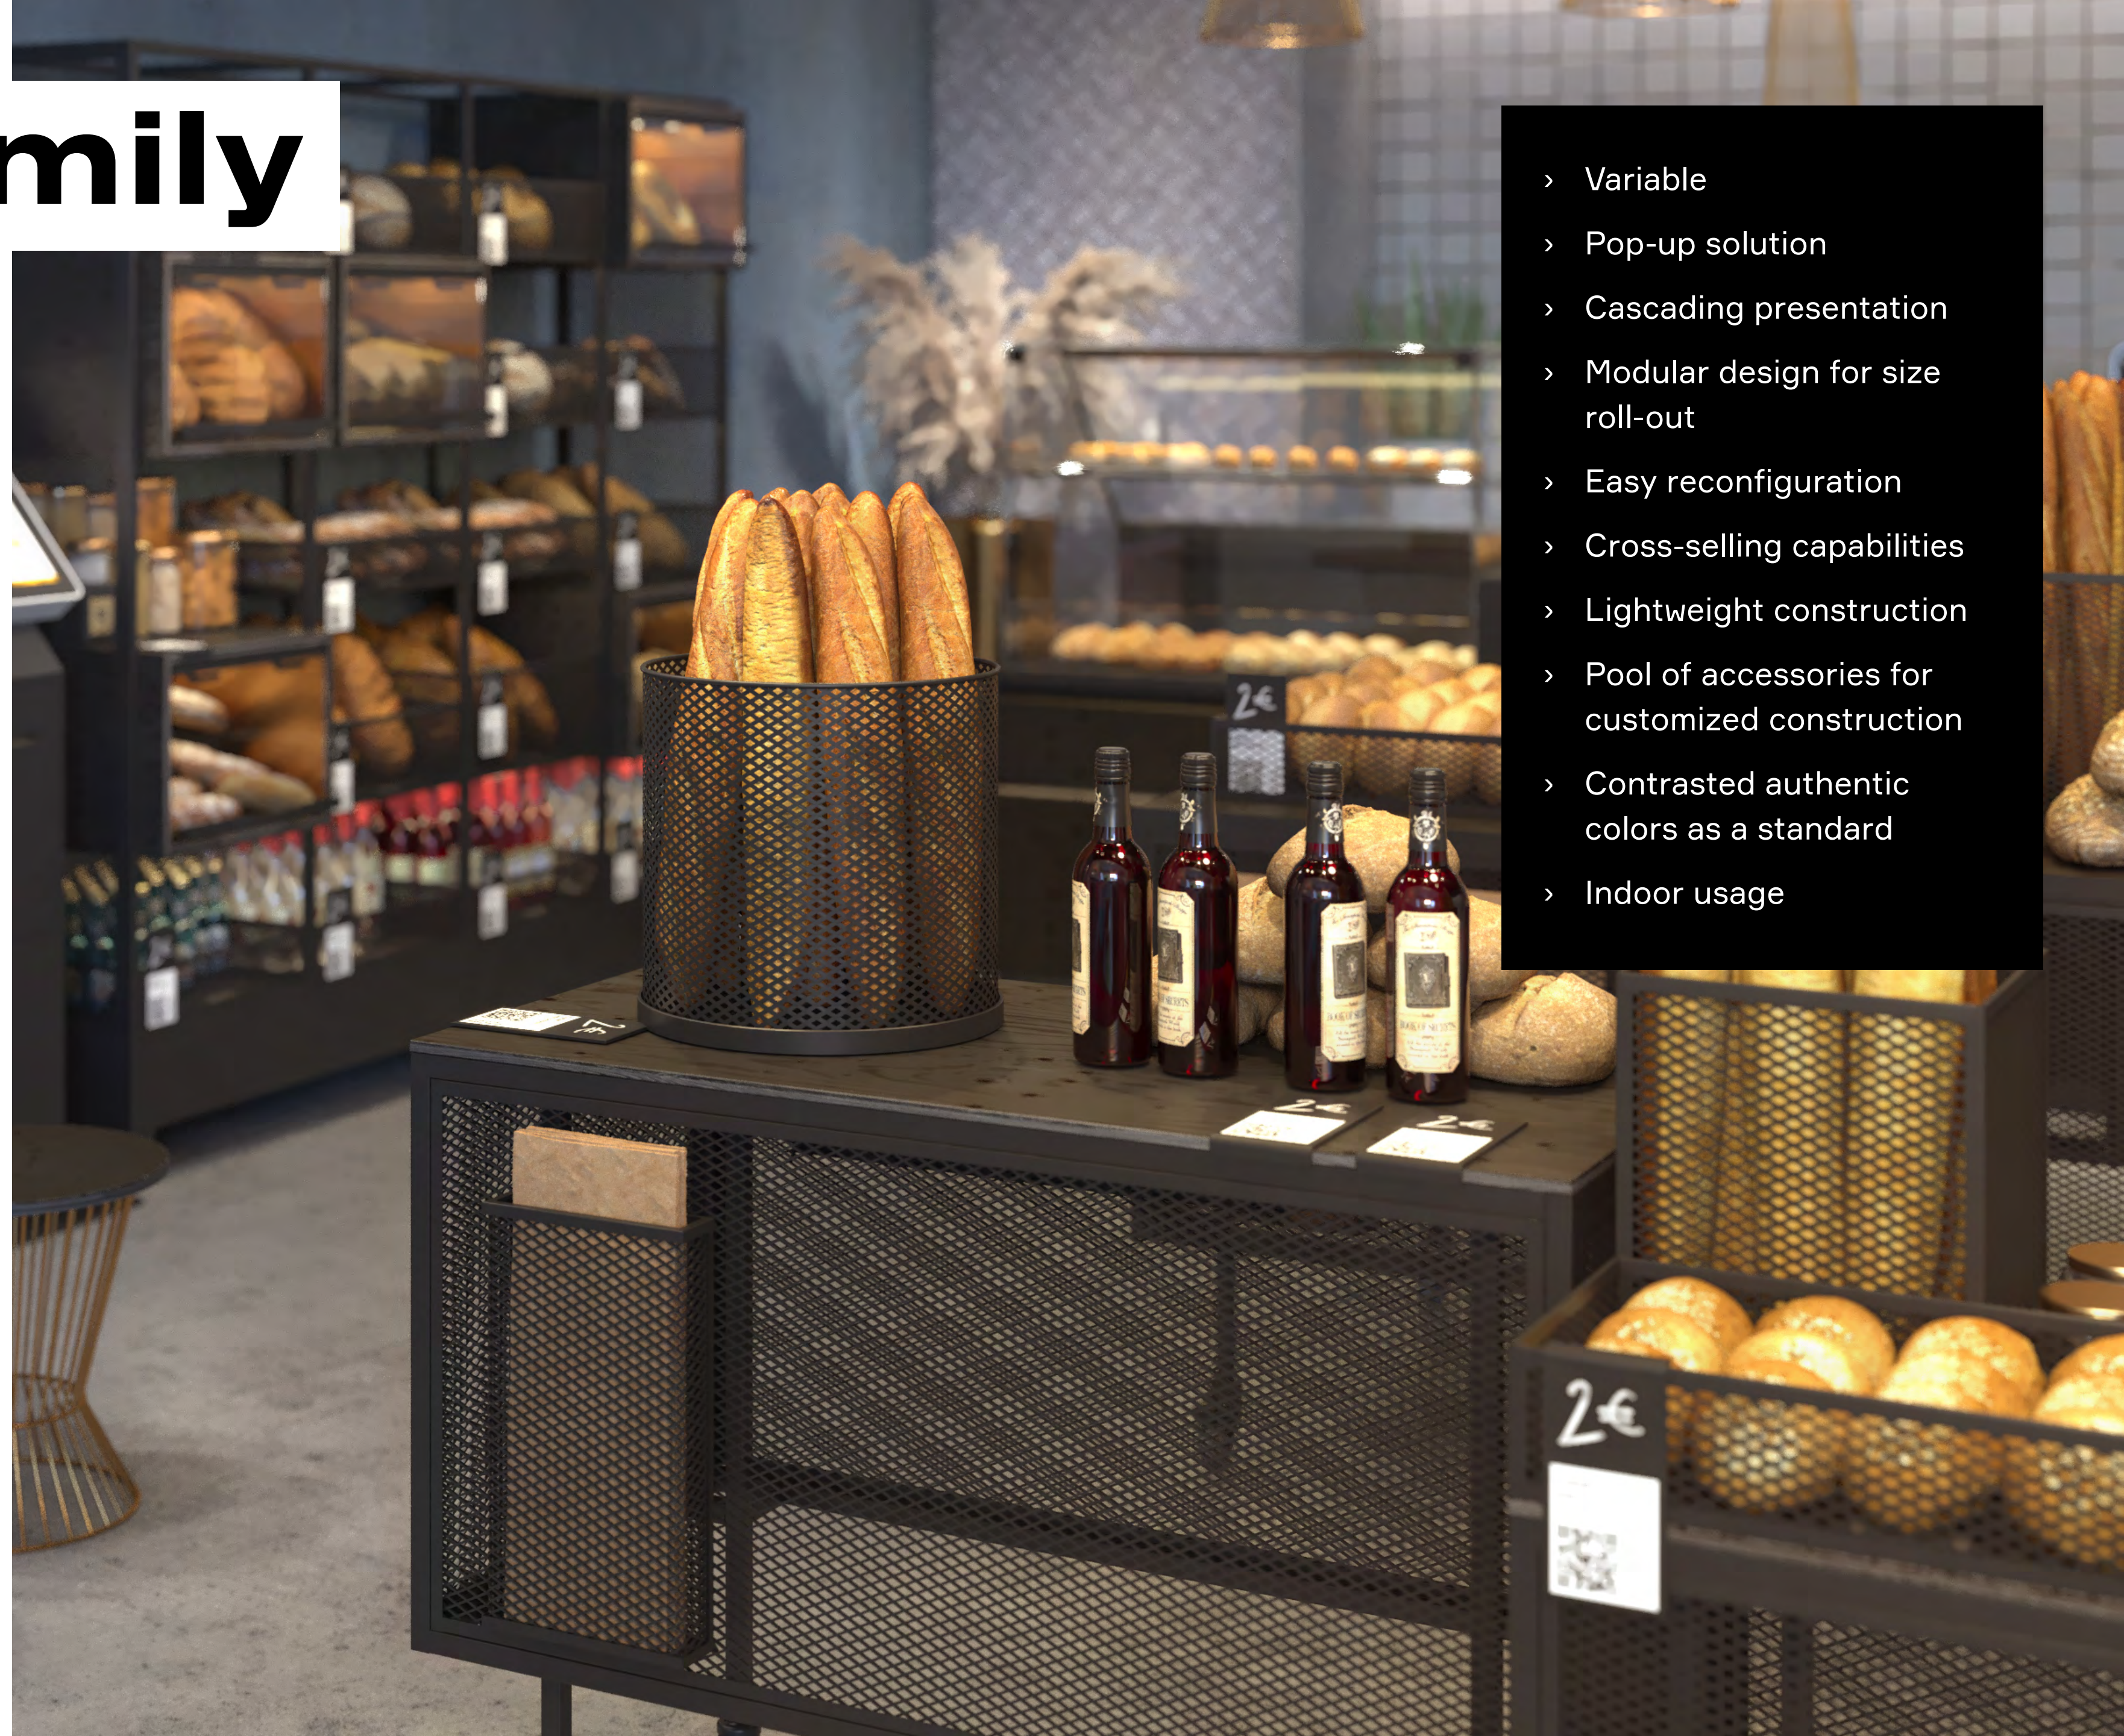

Volokno is designed with hospitality and with the importance of bread as a symbol of prosperity in mind.

Simple and familiar shapes of modules provide wide opportunities for storage and demonstration of bread products

We have expounded woven fabric into industrial mesh around modules. At the same time, the mesh tablecloth is a functional element which allows to place various accessories.

Volokno family consists of 3 types of modules and wide range of additional accessories, that give plenty of abilities to create various customized designs.

- › Variable
- › Pop-up solution
- › Cascading presentation
- › Modular design for size roll-out
- › Easy reconfiguration
- › Cross-selling capabilities
- › Lightweight construction
- › Pool of accessories for customized construction
- › Contrasted authentic colors as a standard
- › Indoor usage
